

# SAMCO Laundry News

Southern Automatic Machinery Co. 's

Fourth Edition

May 2009

## SAMCO is an "EXCLUSIVE" MAYTAG DISTRIBUTOR

Two years ago in January 2007, Southern Automatic Machinery Co. made the decision to take on Maytag as one of our lines of business. After two years experience with the people and the products of the Maytag family, we are proud to announce that we have made a decision to make Maytag our premier line of coin, as well as OPL equipment. Maytag has a full spectrum of washers from 12lb top-load to 125lb front load, in rigid mount or soft mount, and for every need. The dryer line offers the same wide range of choices from 15lb to 175lb.

As we have gained experience with the Maytag product line, we have become convinced of its' superiority and Southern Automatic Machinery Co. feels that we should offer our customers nothing less than the best!

We will continue to sell the same lines of parts that we have always offered our customers. We will also honor the warranty on all of our products that we have previously sold. Service will continue, just as before. The only changes you will see, will be a new commitment to you, our customer and your needs.

We are excited and ready to bring a new level of excellence to the market place. We know our customers always have a choice and we appreciate your business and will strive to help you be tops in revenues and functionality. We think Maytag and Southern Automatic Machinery Co. are a perfect match.

Our commitment to you is to strive to continue to bring you the best products and services that are available in the market. As always, we appreciate your business and look forward to a continued relationship with each and every customer!

Sincerely,

*John B. Sugg,*  
President
